Email: arsath.techdata@gmail.com | Phone: +91 7845117336 | Location: Chennai, India

EDUCATION

Vels University | Chennai, India *Aug 2023 – May 2026*

Bachelor of Computer Applications (Data Science)

- **CGPA:** 7.58/10.0

SKILLS SUMMARY

Languages:	Python, SQL, R
Libraries:	Pandas, Numpy, Scikit-Learn, PyTorch, Matplotlib, OpenCV
Concepts:	Machine Learning, Deep Learning, Computer Vision, Feature Engineering, NLP
Tools:	Excel, Git, Jupyter Notebook, VS Code, Power BI, Tableau
Soft Skills:	Problem Solving, Strategic Communication, Stakeholder Management

INTERNSHIP EXPERIENCE

Data Science Intern | NullClass [View Certificate] *Aug 2025 – Oct 2025*

- Developed machine learning classification models, including a voice-based age detection system (88% accuracy) processing 50+ hours of audio, and a senior citizen identifier achieving 92% precision.
- Improved a car color detection model's robustness against lighting variations by 15% utilizing data augmentation techniques.

PROJECTS

ResumeIQ: AI-Powered ATS Parser [Live App] | [GitHub]

- Engineered an NLP-powered ATS parser using Python and Flask with a semantic matching algorithm to convert unstructured resumes into actionable insights for automated evaluation.

Data Jobs Dashboard [GitHub]

- Designed an interactive Power BI dashboard transforming over 400,000 raw job postings into visual insights on global salary trends, top platforms, and skill requirements.

Automated Car Colour Detection [GitHub]

- Developed an automated vehicle color detection algorithm using OpenCV color histograms, processing 1,000+ images to achieve 98% accuracy across varying lighting conditions.

CERTIFICATES

- **Machine Learning with Python (IBM):** Mastered regression, classification, and clustering algorithms, applying them to 3+ capstone projects. [View Certificate]
- **SQL for Data Science (UC Davis):** Executed complex queries for data analysis, mastering joins, sub-queries, and data manipulation. [View Certificate]
- **Foundations: Data, Data, Everywhere (Google):** Learned about the data analyst's role, the data lifecycle, and how to use data to make informed business decisions. [View Certificate]
